Mobile phone and Electronic device Policy

Reviewed: September 2026

At Lime Tree Nursery we promote the safety and welfare of all children in our care. We believe our staff should be completely attentive during their hours of working to ensure all children in the nursery receive good quality care and education.

To ensure the safety and well-being of children we do not allow staff to use personal mobile phones or other personal devices with imaging and sharing capabilities during working hours.

We use a nursery mobile phone supplied by the nursery to enable parents and others to contact us during the day. Our nursery mobile phone is also used to operate our access control system, which relays a video of our entrance.

This policy should be used in conjunction with our Online safety policy and Acceptable internet use policy, to ensure children are kept safe when using the nursery devices online.

Staff must adhere to the following:

- Personal mobile phones, or other personal devices with imaging and sharing capabilities are not accessed during working hours and must be stored securely in the office
- Smart watches and other wearable devices, including meta glasses, with image-sharing, camera, messaging, or phone capabilities must not be worn during working hours.
- Personal mobile phones and any other items detailed in this policy must be kept in the nursery office in the mobile phone storage box
- Personal mobile phones, or other personal devices with imaging and sharing capabilities can only be used on a designated break and this must be away from the children
- Staff are permitted to use a secure staff Wi-Fi on their personal devices outside of their working hours
- The use of nursery devices, such as tablets, must only be used for nursery purposes
- The nursery devices will not have any social media or messaging apps on them, except those used by management for nursery purposes only
- Apps are only able to be downloaded onto nursery devices by the EIAT IT team. This will ensure only age and content appropriate apps are accessible to staff, or children using them
- Passwords and/or passcodes for nursery devices must not be shared or written down, and will be changed regularly
- During outings, staff must only use mobile phones belonging to the nursery
- Only nursery owned devices will be used to take photographs or film videos
- Nursery devices will not be taken home with staff and will remain secure at the setting when not in use.

Parent use of mobile phones and smartwatches

Parents are kindly asked to refrain from using their mobile telephones, or other personal devices with imaging and sharing capabilities, whilst in the nursery or when collecting or dropping off their children. We will ask any parents using their phone/device inside the nursery premises to finish the call or take the call outside. We do this to ensure all children are safeguarded and the time for dropping off and picking up is a quality handover opportunity where we can share details about your child

Parents are requested not to allow their child to wear or bring in devices with imaging and sharing capabilities. This ensures all children are safeguarded and also protects their property as it may get damaged or misplaced at the nursery.

Visitors' use of mobile phones or other personal devices with imaging and sharing capabilities

Visitors are not permitted to use their mobile phones or other personal devices with imaging and sharing capabilities, e.g. smart glasses whilst at nursery and are asked to leave them in a safe secure place, such as the nursery office, for the duration of their visit.

Photographs and videos

We recognise that photographs and video recordings play a part in the life of the nursery. We ensure that any photographs or recordings taken of children in our nursery are only done with prior written permission from each child's parent and only share photos with parents in a secure manner. We will obtain this permission when each child is registered and update it on a regular basis to ensure that this permission is still valid.

We ask for individual permissions for photographs and video recordings for a range of purposes including use in the child's learning journey, for display purposes, for promotion materials including our nursery website. We ensure that parents understand that where their child is also on another child's photograph, but not as the primary person, that may be used in another child's learning journey. Photographs and videos will not be taken in areas where intimate care routines are carried out.

If a parent is not satisfied about one or more of these uses, we will respect their wishes and find alternative ways of recording their child's play or learning.

Staff are not permitted to take any photographs or recordings of a child on their own personal devices with imaging and sharing capabilities, e.g. cameras, mobiles, tablets or smartwatches and may only use those provided by the nursery. The nursery manager will monitor all photographs and recordings to ensure that the parents' wishes are met and children are safeguarded.

Photographs or videos recorded on nursery mobile devices will be transferred to the correct storage device to ensure no images are left on these mobile devices.

Parents and children are not permitted to use any personal devices with imaging and sharing capabilities on the nursery premises without the prior consent of the manager.

During special events, e.g. Christmas or leaving parties, staff may produce group photographs to distribute to parents on request. In this case we will gain individual permission for each child before the event. This will ensure all photographs taken are in line with parental choice. We ask that photos of events such as Christmas parties are not posted on any social media websites or other platforms areas without permission from the parents of all the children included in the picture.

We use iPad's in the rooms to take photos of the children and record these directly on to their electronic learning journeys via eylog. We ensure that these devices are used for this purpose only and do not install applications such as social media or messaging sites on to these devices.

We carry out routine checks to ensure that emails and text messages (where applicable) have not been sent from these devices and remind staff of the Whistleblowing policy if they observe staff breaching these safeguarding procedures.
